The Responsible Plastic Pallet Company

# GoFLC 960 BENEFITS

1

## CONSISTENCY

100% size and strength consistency; its uniform dimensions and weight prevent inconsistencies which can disrupt a production line.

2

## DURABILITY

Its strength is unrivalled when compared with alternatives; it can withstand frequent use in rigorous, closed loop scenarios.

3

## HYGIENIC

Manufactured from black HDPE, it can be washed repeatedly, reducing the risk of contamination.

4

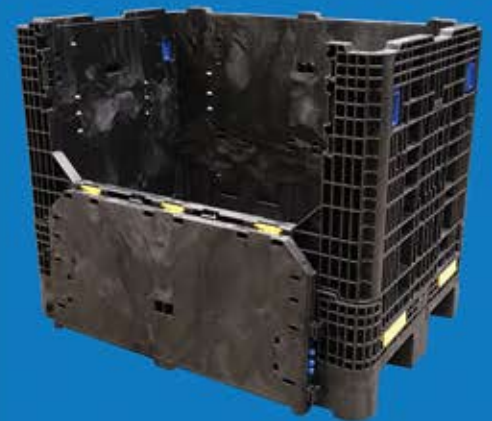

## COMPACT

When not in use it can fold down to a compact 354mm, allowing a standard sized truck to transport up to 198 of these at any one time.

5

## RECYCLABLE

If you no longer require the boxes at the end of their working life, we offer a recycling scheme to ensure that they're responsibly recycled.

The GoFLC 960 also works flawlessly in automated warehouses and material handling equipment. The strength, consistency and reliability make this folding box the perfect companion to high-end systems.

# FEATURES

### 625 Litre Capacity

This large capacity is ideal for storage across multiple sectors

# THE RESPONSIBLE PLASTIC PALLET COMPANY

---

We are leading the way in recycling plastic pallets and boxes in the UK.

As an Accredited Exporter of plastic packaging waste we can help our customers, and the environment, by collecting back the plastic pallets and boxes we supply at the end of their long use and professionally recycling them so they don't end up in landfill – or our world's oceans!

Find out how our plastic pallets and boxes are recycled and why you should choose plastic pallets and boxes over alternatives at [GoPlasticPallets.com/Recycling](https://GoPlasticPallets.com/Recycling)
